Summary

Frontend Developer with 2.5+ years of experience building SaaS web apps, admin panels and mobile apps with React.js, Next.js, React Native, Ionic and TypeScript. Worked on 50+ live client projects in healthcare, ERP, event booking and e-commerce, including clients in Australia, New Zealand and the UAE. Strong in API integration, state management and reusable UI components. Available to join immediately.

Professional Experience

React JS & React Native Developer, *Grafizen International Pvt. Ltd.* 09/2024 – 10/2026

- Built responsive websites, admin panels, PWAs and mobile app screens for 50+ client projects. Rajkot, Gujarat
- Worked with React.js, Next.js, React Native, Ionic, TypeScript, Tailwind CSS and Bootstrap.
- Created dashboards with KPI cards, filters, tables, reports, PDF/Excel export and barcode printing.
- Integrated REST APIs, Socket.io live updates, Firebase push notifications and Razorpay payments.
- Managed state with Redux Toolkit, Zustand and TanStack Query, and built reusable components.
- Built SEO-friendly business and e-commerce websites with Next.js, Astro, GSAP and Framer Motion.
- Fixed UI bugs, improved responsiveness and worked closely with designers and backend developers.

Frontend Developer Intern, *Grafizen International Pvt. Ltd.* 01/2024 – 09/2024

- Completed a 9-month React.js and React Native internship with work on live client projects. Rajkot, Gujarat
- Built UI sections, forms, web pages, mobile app screens and reusable components.
- Learned API integration, Git workflow and debugging while working with senior developers.
- Offered a full-time developer role based on internship performance.

Projects

Hospital Feedback & Complaint Management SaaS, *Multi-Hospital Web App, Admin Panel & Mobile App*

- Built role-based apps for OPD, IPD, employee and consultant feedback and internal complaints, with live status tracking and push notifications.
- Turned the project into a reusable product that can be set up for different hospitals.
- Built and tested a Gemini API feature that writes a feedback summary report for the hospital owner.

Event Pass Booking Platform, *Navratri Events Website & Admin Panel*

- Built event websites with online pass booking: OTP login, pass selection, promo codes and Razorpay payment.
- Generated QR code passes with PDF download, plus on-spot booking, volunteer and sponsor pages.
- Built the Ionic admin panel for events, pass bookings, QR scan entry, roles, refunds and Excel reports.

Jewellery E-commerce Platform, *Website, Admin Panel & Mobile App*

- Built the online jewellery store with shop and product pages, wishlist, cart, coupons, Razorpay checkout and order pages.
- Created the Ionic admin panel for products, orders, customers and sales reports.
- Built the React Native app with TypeScript and TanStack Query for billing and invoices.

Industrial ERP Software, *Factory Management Admin Panel & Mobile App*

- Developed modules for stock in/out, worker management, production reports and delivery tracking.
- Created dashboards, forms, tables, filters and report screens with live API data.
- Built the React Native app for factory staff using TypeScript, Zustand and TanStack Query.

Dental Hospital Management Software, *Australia, New Zealand & UAE*

- Worked on appointment booking, doctor scheduling, patient records and treatment workflows.
- Built separate country versions of the website and admin panel with responsive layouts.

Indoor Entertainment Centre Platform, Website, Admin Panel & Mobile App

- Built an animated website with React, Tailwind CSS, GSAP and Lenis for games, packages, pricing and gallery.
- Created the Ionic admin panel for games, pricing plans, offers, café, card balance, transactions and reviews.
- Built the React Native app with bookings, QR entry, wallet and reward points.
